# Exercise no 1.

New commands: NEW, OPEN, SNAP, GRID, ORTHO, LINE, CIRCLE, ZOOM

1.1. Drawing using basic drawing tools.

Begin a new drawing (NEW command) using the *acadiso.dwt* drawing template.

Draw the following objects using only LINE and CIRCLE commands. Set the proper SNAP and GRID sizes. For ease of use, you may enable the ORTHO option.

1.2. Drawing using Cartesian coordinate systems.

Using the LINE command draw the following figures. Begin drawing each figure at the bottom left corner and proceed in the counterclockwise direction. **Attention:** Please switch off the DYNAMIC INPUT.
